cosmopolitan

cosmopolitan

Persan's new collection for 2017, Cosmopolitan, draws its inspiration from world metropolises.

Thanks to the technology, the world is at the reach of our fingertips today. The concept of "far" has now just a figurative meaning: we are in Istanbul or London but at the same time in New York or Paris.

Whilst keeping in touch with our traditions, we connect to the world through the urban culture that we live in today.

Cosmopolitan is a rich collection that brings together a harmonious combination of contrasting designs in bold textures, presented in deep and dense colours: black, midnight blue, mink, honey.

The collection features a diverse range of upholstery fabrics in linear and zigzag designs as well as small geometric patterns. Gold and silver glitters on the base fabrics create an elegant effect. Chenille, combined with metallic and platinum base to create strong textures, makes a sophisticated comeback in Cosmopolitan.

The rich selection of upholstery fabrics are complemented by a signature drapery with stylised ikat design. A black out drapery with rough silk effect adds calm and balance to the collection.

To discover the soul of Cosmopolitan, come and touch this magnificent collection.
