TARABYA

G I B R A N

Persan, 2017

Gibran, a brand-new Tarabya collection for 2017 from Persan, brings forward classical designs reinterpreted and modernised in an unusual way. Elegantly bringing together classic style and modern textures, Gibran offers a variety of fabrics suitable both for contemporary and classical interiors.

Damask designs with worn out effect and hexagon diamond patterns are strong features of the collection. Textures with ostrich skin patterns also bring forward a contemporary modern look. Three-dimensional chenille upholstery fabrics and elegant satins with chenille details add glamour and diversity to the collection. Metallic and lustre effects meet with sophisticated yarns and textures in Gibran, which comes in special colours such as silver grey, cream and grey green.
