

PALLADIO  
BORDER COLLECTION

PERSAN  
HOME STUDIO

# Palladio

Combination of creativity and innovation is the fundamental philosophy of **Persan** and the new border collection **Palladio** leads to an inspirational path for new decoration ideas.

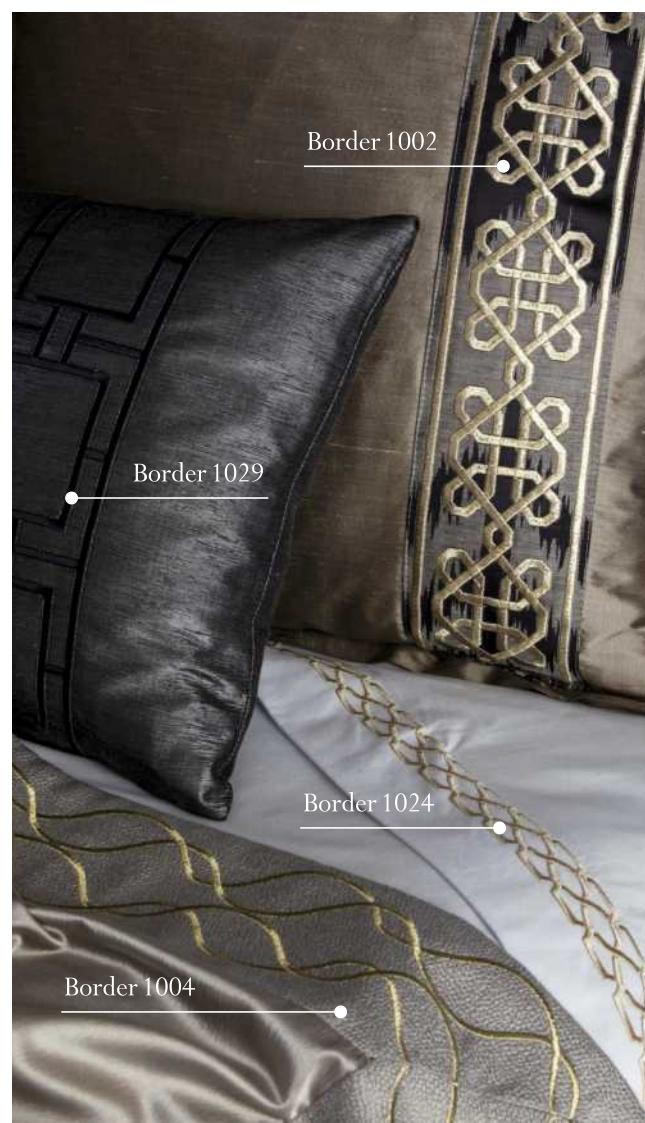

Named after Italian architect and a pioneer of neoclassical architecture Andrea Palladio, **Palladio Border Collection** consists of 52 variant embroidery borders that are designed coordinately and in perfect harmony with rich fabric collections of Persan. In addition to stylized classical patterns, modern geometric patterns are predominant in the collection that offers a valuable selection in a broad spectrum.

Every pattern in the collection is applied with two different colourways on a wide range of base fabrics such as silk, linen, velvet or satin. The patterns are embroidered in single or two-coloured and sometimes in multicoloured threads.

All the patterns in **Palladio Border Collection** are applicable on every Persan fabric in desired colours with customizable embroidery that allows you to design unlimited options without limiting your creativity. You may enrich your curtains, cushions, bedspreads and all the textile products you can think of with **Palladio**, and make dazzling and stylish additions to your plain or textured fabrics with border details.

If you are looking for a new inspiration for a customized and unique decoration,
