SUMMER STORY

~ OUTDOOR ~

Bringing together contemporary style with high performance, Persan offers smart and durable fabrics with an impressive outdoor collection, **Summer Story**.

Summer Story features high performance fabrics especially designed for outdoor spaces such as gardens, patios, pool sides, boats and yachts.

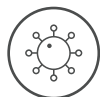

Focusing on innovative yarns and vivid colours, **Summer Story** is an exquisite collection that combines style and durability for a chic and practical outdoor living. The wide range of fabrics within the collection has all the easy care characteristics required for outdoor use. They have high resistance to fading with a breathable surface and feature anti mold, anti bacterial and water repellent finishes which ensure a long lasting and comfortable usage.

Multicolour fabrics with modern designs stand out within the collection where other essentials for outdoor living such as bold stripes, tropical floral designs, herringbones, chevrons, small scale geometrics and plain textures create the versatile and strong look. A unique woven fabric specially designed for cushions and an incredibly soft chenille weave help to complete the final look for an elegant decoration.

Vibrant and bold colours are accompanied with fresh white throughout the **Summer Story** collection. The colour palette offers the brightest tones of yellow, green, orange and navy as well as earthy tones such as linen, sand and dark greys.
